Self Defense Plea is Made by Chas. Stanford in Murder Trial

A plea of self defense was made in District Court here Wednesday afternoon by Charles Stanford, on trial for the murder of Luther Pickens near Rockdale in the Hamilton Chapel community on the night of December 24, 1932.

Stanford in his early thirties told of unsuccessful attempts to bring about reconciliation with his wife, and testified that Pickens had struck him over the head with a single tree and he had shot in self defense. At the time of the shooting he said he had fired his pistol in the air to frighten his wife. Pickens hearing the shots went to the scene and was slain. Pickens was a brother in law of Stanford.

Criminal District Attorney Burns was conducting his first major prosecution in District Court. He was being assisted by Raymond Gray of Dallas, brother in law of Mrs. Stanford.

T.S. Henderson and O. L. Kidd of Cameron and J. W. Garner of Rockdale were defense attorneys.

Testimony had not been concluded Thursday and indications were the case would not go to the jury before late Friday or Saturday.

When the case was called Monday Charles Stanford, charged with the shooting of Luther Pickens near Rockdale, December 24. the defendant filed a motion to quash the indictment because his wife was called before the grand jury and gave testimony from which the indictment was found.

Judge W. G. Gillis overruled the motion. Testimony was offered and shown that Stanford was also indicted by the same grand jury with assault with intent to murder his wife, Mrs. Elizabeth Stanford.

The jury was selected Monday and Tuesday as follows: W. C. Hirt, Salty, A. W. Kornegay, Hanover, W. E. Thomas. Milano, Ray Woods, Milano, W. W. McCollum, Milano, J. A. Hood, Milano, Ed Casper, Thorndale, G. C. Walker, Gause, J. W. Clement, Ad Hall, A. R. Cloud, Sandy Creek, Johnnie Andrews, Cameron, G. W. Triggs, Cameron.

Clara Bow Comes to Milam Sunday and Monday January 29th & 30th

The rising curtain at the Milam Theatre next Sunday, January 21th will reveal a new Clara Bow. Not the "It Girl of the Screen," or "That Red Head," or 'That Collegiate Hoyden," or "The Brooklyn" or even "The Living Symbol of the Jazz Age." Her new film is "Call Her Savage," the Fox production of Tiffany Thayer's novel of the same name.

Well over a year has elapsed since the famous Bow personality has been seen on the screen, a year of refreshing rest and study during which time the famous star stored up the needed energy and vital forces which she is said to release in full blood during the unfolding of this stirring drama.

In the main, the lovliness of features and expressions that has endeared Miss Bow to the public remains, but to replace the hoydenisms and mad cap flapper ways that marked her earlier screen portrayals she is reported to possess a new self control, a poise and dignity that marks that picture as the first triumph of her maturing art.

The plot of the picture relates, briefly, the dramatic struggle of an impulsive girl to control the half savage temper which is her fiery birthright and thereby find the one true love she craves.

From a Texas ranch, where she grew up in the wild ways of the open, Clara is expelled to a Chicago finishing school by her wealthy but exasperated father. Her growing intimacy with a handsome half-breed portrayed by Gilbert Roland, is given as the reason by her stern parent, but in reality his action comes as an admission of weakness on his part to control his headstrong daughter.

LEGION COMMANDER WILL VISIT CAMERON

The Edwin Hardy Post No. 9, American Legion will close its annual drive for members Friday night, February 10 with a big oyster feed. This feed will be put on by the losers in the drive for members. The post membership has been divided into two teams, the Army and Navy. Lee Clore, General of the Army is confident that for the first time the Army will win over the Navy and is this week sending out urgent calls for the men on the Army side to round up every available member during these last few days.

However, L. Van Perkins, Armiral of the Navy says, "We will sink that Army just about the middle of the pond as usual."

The Department of Texas, realizing that membership in the Legion is very vital at this particular time, because both the National and State Legislative bodies are in session, and the Legion is duty bound to protect the interests of the disabled ex-service men and their families, and influence with the legislative bodies is in direct proportion to the total membership in the Legion.

All old members are urged to be at this meeting and bring a recruit with them and enjoy the good eats and hear a message from our department Commander that interests all ex-service men.

Milam County Women Spend $295,150 For Beauty Each Year

MILAM COUNTY

Milam county women spend 4309,-190 hours and $295.150 dollars annually to make themselves beautiful, it is estimated by Alice Regina Clark, counsellor of the National Penuty Institute, Chicago.

Miss Clark bases her figures on the findings of a nation wide survey which showed that the average American woman spends one hour a day or 365 hours a year in front of the mirror and expends an average of $25 each year for cosmetics, treatments and other beauty aids. The figure embraces all women 15 years old and over.

Her careful attention to the selection and use of cosmetics is responsible for the American woman's reputation of being the best groomed in the world, Miss Clark believes.

BURNS

Burns are among the most common accidents. They often result from contact with hot stoves, furnace, electrical apparatus, from hot lard or grease, from matches and a number of other things.

Many burns are more or less trivial. They merely cause redness of a very limited area of the skin. They are painful but not dangerous. But sometimes burns are severe and dangerous—either being deep, or covering much of the surface. Even burns that are mild in degree may be dangerous if they involve much of the surface. It is generally stated that a burn which involves two thirds of the skin will prove fatal.

While superficial burns which are small in extent may be treated by home remedies, all deeper and more extensive burns should have the care of a physician.

Vaseline Effective

The pain of slight surface burns may usually be controlled by some protective covering which shuts out the air. One of the best applications is plain, sterile vaseline. This may be applied on sterile gauze or on a clean cloth. Cotton makes a disagreeable dressing for burns, if

Black-Draught
Clears Up Sluggish, Dull Feeling

"I have used Thedford's Black-Draught for constipation for a long time, and find it gives relief for this trouble," writes Mrs. Frank Champion, of Wynne, Ark. "I think it is good for spells caused from gas on the stomach. If I get up in the morning feeling dull and sluggish, a dose of Black-Draught taken three times a day will cause the feeling to pass away, and in a day or two I feel like a new person. After many years of use we would not exchange Black-Draught for any medicine."

The Child Reader

by
MARJORIE BARROWS
Editor, Child Life Magazine.

Marjorie Barrows

One afternoon many years ago a wharf rat on San Francisco Bay wandered into the Oakland Public Library. There, opening a bound volume of a children's magazine, he stumbled upon a story. It was a story about a boy like himself—a runaway, a gang leader of wharf rats, who had certain semi-piratical adventures, but who, after a hard lesson, learned of better ways of living his life.

Making of Jack London.

The dramatic, exciting story awoke in the young reader the uneasy consciousness of his own wrong actions. He walked out of that library resolving to lead just as adventurous a life but one that carried with it a clear conscience. So he joined the Fish Patrol, cruised about the bay, fought poachers, and before long began to write stories about his adventures.

That boy was Jack London. The experience of this famous writer occurs, in a rather less dramatic fashion, in the life of every boy or girl.

Careful investigators have discovered that next to persons, nothing has more influence on children than what they read. If a hero they admire acts under certain circumstances as they themselves would like to act, they'll remember it.

They Imitate the Hero.

And when the time comes, they'll unconsciously be influenced by that hero's action and try to do likewise. The heroine's kindness, ambition, steadfastness, loyalty, the hero's resourcefulness, quick-wittedness, painstaking qualities, courage, magnaminity, modesty—all these examples "sink in" and are emulated both now and later. One story with hidden character-building values is worth a dozen sermons from parents or teachers.

Let us try to see that this sort of a story, full of plenty of adventure for the boy, full of interesting plots and characters for the girl, is convenient for them to pick up.

Jack London isn't the only one to be tremendously influenced by the printed word.

We are glad to report that H F. Smith is again able to be up after a severe spell of flu.

There has been radical changes made in the rules for the spelling contest in the University Interscholistic League this year, according to Miss Nettie Turner, who was elected Director of Spelling in this county at the recent teacher's institute

Formerly the contestants in this event were classified on an age basis. The new rules provide for their classification on a grade basis. It is believed that this new classification will better enable the teacher to the contest with the regular spelling instruction. Th price of the spelling bulletin has been reduced by one half, copies being now available at 25 cents per dozen or $1 per hundred copies. This means that the 16 page bulletin is made available in hundred lots at one cent per copy.

Teachers are cautioned that the contest involves plain writing as well as spelling. Often a good speller is a poor writer and it is necessary to coach such contestants in plain writing. Every letter in a spelling paper must be clearly legible.

It is Miss Turner's opinion that no more vauable training can be given to pupils than that involved in adequate preparation for this contest. The words prescribed are all words in common use, and words therefore for which the student has constant use. Moreover, the ability to write a clear, legible hand is an accomplishment which many graduates of our schools fail to acquire; yet in business and the professions, and even in the trades such an ability is of the utmost importance.

J. W. Brown and son, Johnnie, spent Tuesday of last week in Temple.

Mr. and Mrs. Earl Hook of Temple have been guests in the J. B. Hook home here the past week.

It seems that Sharp youngsters have taken to marrying since January 1st. J. W. Brown, justice of the peace here, married three couples within less than thirty-six hours the past week end. Saturday night he married James Bross and Miss Drue Lee Paskall. Sunday night he married Martin Shannon and Miss Janie Lands, both couples of the Friendship community. He also married a mexican couple Sunday. Mr. Brown says he has married more people since January 1, 1933 than he married during the entire year of 1932.

A birthday dinner was given at the home of Mr. and Mrs. C. J. Brown here Sunday night in honor of Mr. Brown who was forty-one years old Saturday. A large crowd of relatives and friends attended.

The Sharp Yellow Jacket Cagers were defeated twice the past week Once by the Thorndale Bulldogs and once by the Val Verde Team. However Thursday night they defeated the Rockdale Tigers by a close margin.

The Sharp Senior girls are playing excellently this year.

Mr. and Mrs. C. R. Middleton transacted business in Cameron last Saturday.

College Degree Worth $100,000, Experts Find

Statisticians and research investigators have at last run down the elusive and much discussed dollar and cents value of a college education and have fixed it at $100,000. Their survey reveals that the average untrained boy goes to work at the age of 14, earns less than $1,700 a year, so that his income from 14 to 60 totals $64,000. The high school graduate, they find, starts work at 18, reaches his maximum income of $2,800 at 50 and by 60 has earned a total of $88,000. The college graduate, they learned, starts his career at about 22, has caught up with the high school graduate by 30 and at 60 is earning from $6,000 to $8,000 a year with a total earning at 60 of between $160,000 and $200,000. Figures from the same survey produced by the statistical department of Union Central Life Insurance Company show that out of 1,000 children entering grade school only 23 graduate from college. Lack of funds is revealed as the main reason for leaving school and educational insurance is now advocated as a means of giving a higher percentage the "break" which a college degree assures.

Lucky Scrap Jelly

Chip up pieces of candied fruit—you must have at least one-half cupful and you can use twice that amount if you like. If no candied fruit is around, use broken nut meats, or small bits of candy or raisins or dates stoned and finely cut.

Make 2 cupfuls of lemon or orange gelatine. Pour the gelatine into a mould and, when it is cool and begins to "set" add the diced candy. When serving time comes, turn the mould upside down over the serving dish. Wrap it tightly with a cloth wrung out of very hot water and the jelly will fall onto the dish.

it is applied directly to the burn. If no vaseline is at hand, butter, lard, cream, or a little moistened bicarbonate of soda may be used. These are things which usually are available for first aid treatment.

Extensive burns and deep burns may cause considerable constitutional disturbance. They are accompanied by more or less shock. The shock may be followed by considerable fever. Complications involving the kidneys and intestines may result from systematic poisoning, the result of toxic, or poisonous substances produced by the burn. Then there is always the possibility of wounds resulting from burns becoming infected. Hence, efforts to care for victims of serious burns should be limited to what first aid is necessary until the services of a physician are obtained.

"Last summer, my health was bad, so I began taking Cardui," writes Mrs. H. E. Slaughter, of Norman, Okla. "My mother had given me Cardui in girlhood, so naturally I turned to it when I felt I needed it. I felt run-down and a general weakness. I had bad, dizzy headaches when everything would seem to dance before my eyes. My right side pained me so much, but since taking Cardui the pain has left me. dissillusionment leads her for nearly a year, in a mad gamble with money and men. This period of her stormy career is rudely broken into by the shock of a wire from Texas informing her that her mother played by Estelle Taylor, is dying. Back on the ranch amid the familiar surroundings of her girlhood, is revealed her mother's indiscretion responsible for the fiery temperament which causes men and women to "Call Her Savage."

Others featured in important supporting roles are Thelma Todd, as Clara's Blonde rival; Willard Robertson, as her stern father; Anthony Jowitt, as one of her weakened suitors and Weldon Heyburn as the Crow youth whom her mother had admired.

Hints for the Household

HOUSEHOLD HINTS

Suggestions for Cooking Vegetables

It is most convenient and practical to cook again as many of certain vegetables as can be used in one meal. The vegetables I refer to are spinach, turnips, cauliflower, peas, and beans. The first night serve them plain with butter, salt and pepper and on the second night, cream the remaining vegetables.

COOKING HINTS

Mousse

Mousse is an ideal dessert for every class and occasion. It is also good and easy to make. It is especially nice for the winter months.

Method: Just whip your cream stiff. Add sweetening and flavoring. The flavor can be of the bottled or canned variety. When pineapple or any fruit is used the platter or dish should be garnished with the fruit used with possibly the addition of a cherry.

Raisin Puffs

2 eggs.
1-2 cup of butter.
2 tablespoons of sugar.
2 cups of flour.
1 cup of milk.
1 cup of raisins (chopped)
1 teaspoon of vanilla.
3 teaspoons of baking powder.

Method: Mix butter and sugar. Add beaten eggs. Add flour and baking powder, then milk and flavoring. Last add the raisins dredged with flour. Pour in individual molds and steam for 1 hour. Serve warm with foamy sauce.

Foamy Sauce

1-2 cup butter.
1 cup powdered sugar.
3 eggs.
Vanilla.

Method: Cream butter and sugar together. Add yolks of eggs well beaten. Add the flavoring and last add the egg whites beaten stiff.

BAKING HINTS

Tree Cake

This can be made in one long piece or, when cut, it can be as small tree cakes.

4 egg yolks.
3 tablespoons of cold water.
1 teaspoon of vanilla.
1 cup of sugar.
1 1-2 tablespoon of corn starch.
3-4 cup of flour.
1 heaping teaspoon of baking powder.
Little salt.
4 egg whites.

Method: Beat egg yolks and water together until very light. Add the sugar and flavoring. Beat well. Fold flour, corn starch, and salt into first mixture. Beat the whites very stiff and the last thing fold the whites into first batter. Pour cake into large drippingpan. Be sure to line pan with paper and grease. Bake 15 minutes in moderate oven.

Have a clean cheese cloth ready and sprinkled with powdered sugar. Take cake from oven and lay on the cheese cloth. Remove the paper and spread cake with butter frosting. Roll cake up. Wrap cheese cloth around it to hold it in shape. When cool frost with remaining frosting. Decorate or run fork through frosting to resemble a log.

Frosting

1-4 cup of unsalted butter.
1 1- cups of sifted confectioners sugar.
1 tablespoon of warm strong coffee.
1 egg white.

Method: Cream butter and part of sugar. Add coffee slowly and mix continually. Beat egg white stiff. Add remaining sugar. Mix together thoroughly. If necessary add more sugar.

Frost Proof Windows

Rub windows with cloth dipped in alcohol. Polish with dry cloth. They will shine brillianty and be practically frost proof.

Date and Orange Salad

This makes a fine combination for a winter salad. Arrange prettily and serve with French Dressing.

The Child Reader

by MARJORIE BARROWS
Editor, Child Life Magazine.

I met Bill's father today.

"Bill's six years old," he said. "He's a hard-headed young man and he treats fairy tales with a withering contempt. He likes real stories. He likes simple books about how things happen. Are there any new books that will fit Bill?"

Marjorie Barrows

I gave him the names of several new ones, for there are lots of Bills in America today and many authors are writing just the sort of books they like.

Real Adventure Best.

If your Bill doesn't take to fairy tales, to legends, to fables, don't force them on him. Offer him instead Charlotte—Kuh's delightful "A Train, A Boat, and an Island"—the story of a real family's real trip to Bermuda. Offer him Heluiz Washburne's fascinating "Letters to Channy"—a real mother's letters of a trip around the world written for her own little boy back home. Offer him "The Pilgrim's Party" or "The Cruise of Mr. Christopher Columbus" by Sadybeth and Anson Lowitz, two humorous and very interesting picture books that acquaint younger readers with stirring history.

Perhaps Bill wants to know more about motormen and firemen and what they really do. Mrs. Kuh's books for small children will help him out there. Perhaps he would like "How It All Began," a book that is delightfully written and illustrated by Janet Smalley. It will tell Bill how primitive man watched the lightning and found he, too, could make fire by twirling two sticks around together. Later man found other ways of heating and lighting and at last we got our matches, gas, oil and electricity. The book goes on, in the simplest fashion, to show the beginnings of messages, of travel, clothing, houses. It is a thrilling sort of real fairy tale that particularly appeals to boys like Bill.

Travel Stories Are Good.

What happens to a real letter after it gets posted may also interest some of our very youngest readers. William Siegel, a Russian artist, tells a simple story about that in "Around the World in a Mailbag." Bob and Betty's letter to their father doesn't reach him in San Francisco. So it is forwarded to China, Russia, France, and even to Egypt. But though the various postmen do their best the letter does not finally reach him until he is back in New York again. The pictures make this book especially attractive.

Here are just a few of the new books for fairy-tale-strikers. Many more are to be found in the libraries and bookstores. Just exactly the book your Bill is looking for is waiting for him there. And it is just the right book for him at the present time.

Take him along and let him help find it!

60 cents* of every gas bill goes for TAXES . . . .

IN the course of a single year, MORE THAN TWO AND THREE-QUARTER MILLION gas bills are rendered to customers of the Lone Star Gas System. It requires 60c for each and every one of these bills to pay the numerous TAXES levied against the fuel service of this dependable System for the production, transportation and distribution of natural gas.

This money comes from the pockets of the gas consumers, and adds to the cost of gas service. The company acts as an agency for the collection of this tax money from its customers, and has no control over this item of expense which is a part of the rate you pay for natural gas.

* This figure computed from the amount of taxes paid compared to the average number of bills rendered in a year.

Greater security and convenience for you

IN JANUARY, 1754, George Washington returned to Williamsburg, Va., after bearing a message to the French forts near Lake Erie. He twice faced death; when fired upon by a treacherous Indian guide and when thrown into the icy waters of a river from a raft. The round trip required 78 days.

Today a message between these two points can be delivered in a few seconds. The telephone has performed an important service to all of us by speeding up communication. Reduced to simple terms, this means greater security, economy, convenience, leisure for each of us.

The better your service, the more valuable it is to you. Eternal vigilance and constant effort are necessary to insure you good telephone service. That is the responsibility of 23,000 men and women of the Southwestern Company. For 1933 they will endeavor to give you telephone service that is courteous, efficient, quick.
